

attaching a clasp & bail to leather cord

you will need the following supplies:

2 bails

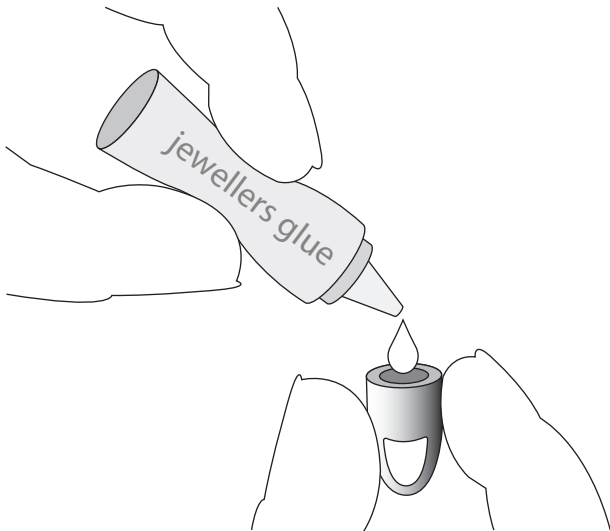

leather cord

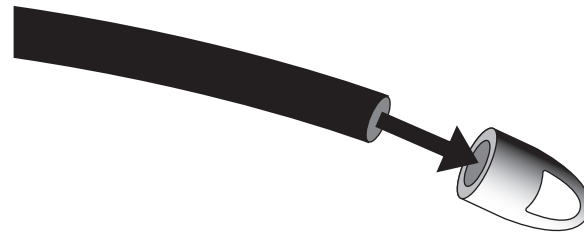

needle nose
pliers

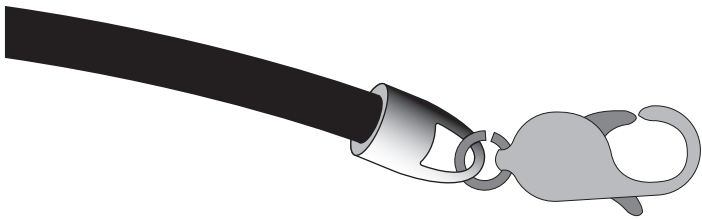

clasp

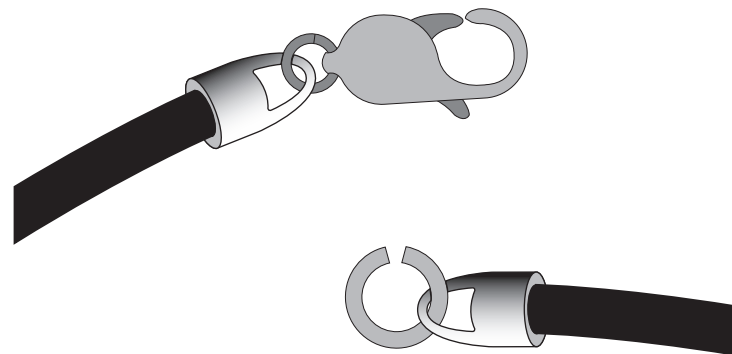

Step 1: Once you have attached your beads to the leather cord you are ready to attach the bail. Drop a small amount of jeweler's glue into the cavity of the bail.

Step 2: Insert one end of the leather thong into the glue filled cavity of the bail. Repeat steps 1-2 on the other end. Let glue set according to glue manufactures directions.

Step 3: To attach the clasp, open the loop on first side of the clasp and join it to the bail on the end of the leather. Re-close the loop.

Step 4: Repeat step 3 on the other side.
