

coil knot earring

you will need the following supplies:

leather cord

needle nose pliers

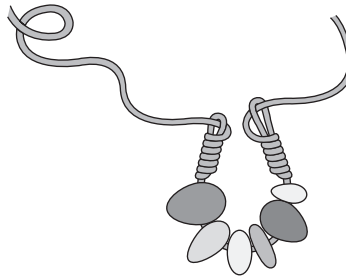

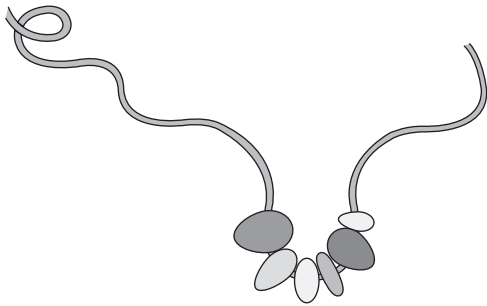

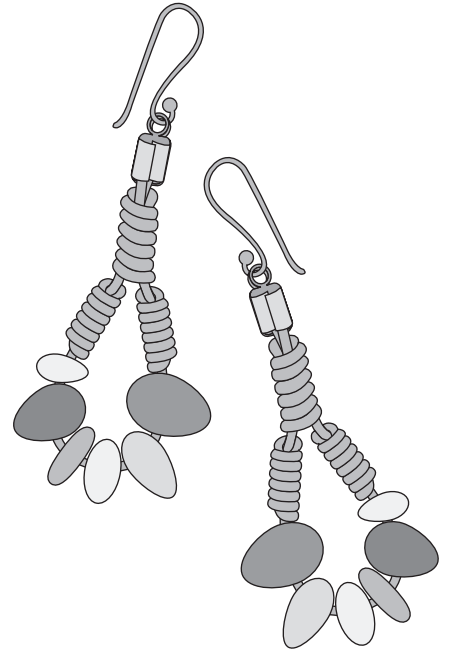

beads

2
leather crimps

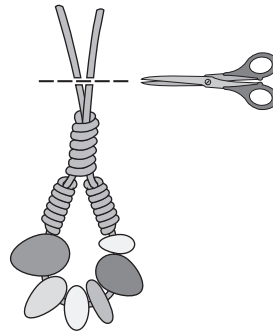

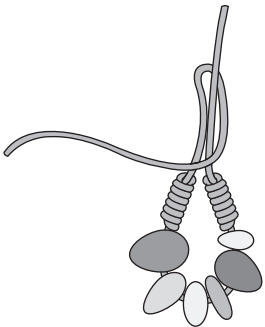

Ear wire

Step 1: This technique requires cord 4 times the length of the finished product. If you want a 3-inch circumference, you will need 12" of leather cord. To begin thread your beads onto the leather cord.

Step 2: To make your coil ends follow "coil necklace" instructions, steps 1-6.

Step 3: To combine the two ends together follow "coil knot ends" instructions, steps 1-6.

Step 4: Attach the leather crimp to the ends by cradling the ends of the leather cord in the middle of the leather crimp.

Step 5: Close over one flap of the leather crimp with your needle nose pliers and then the other side. Crush firmly to hold in place.

Step 6: Attach the ear wire by threading it through the loop of the leather crimp and sliding up until the loops link.
