# knotting beads
## with bead cord & french wire

you will need the following supplies:

| clasp	French wire	bead cord with fixed needle	beads	6 beads with larger holes

Step 1: Remove bead cord with from its card
A) Tie a temporary knot at the end.
B) Thread on 3 beads with larger holes.
C) Thread on 3/4" of French wire.
D) Thread on one end of the clasp
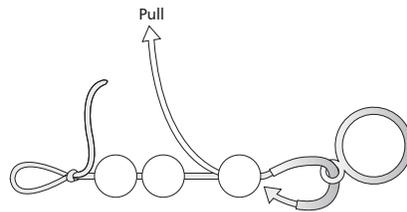

Step 2: Slip the clasp over the French wire. Thread the bead cord into the hole of the first bead and out. Pull string taught to form a French wire loop.
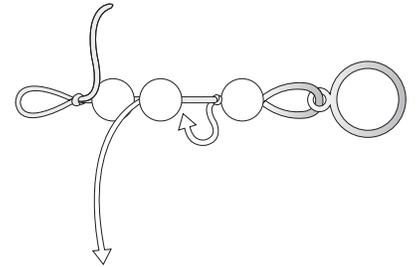

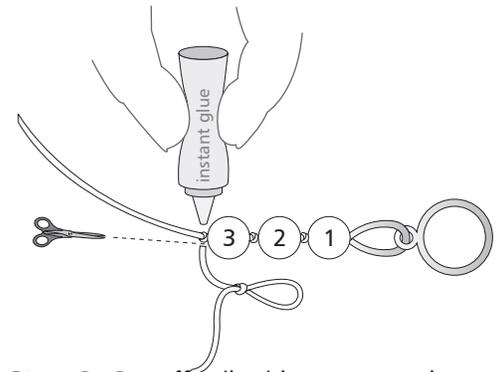

Step 3: Tie a knot closely at the bottom of the first bead. Thread bead cord into the second bead and out.
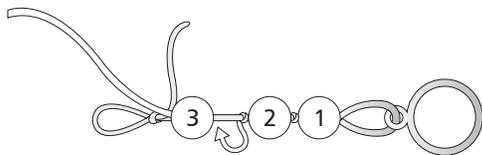

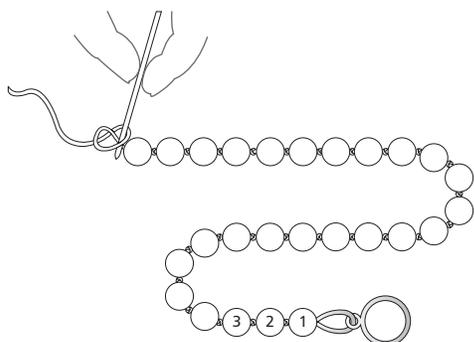

**Step 4:** Tie a knot closely at the bottom of the second bead. Thread bead cord into the third bead and out.
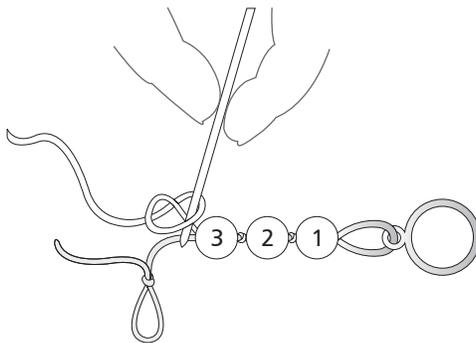

Step 5: Tie a knot at the bottom of the third bead. Use a needle to ease the knot close to the bead.
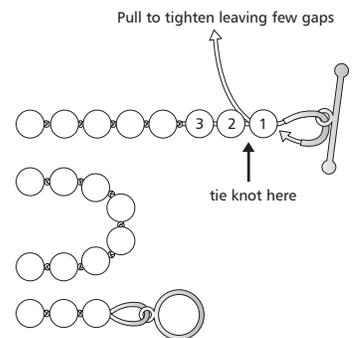

Step 6: Cut off tail with temporary knot. Apply instant bonding glue to fix the knot.

Step 7: Begin to string and knot your necklace by adding a bead and tie a knot one after another. Add and knot all beads but your three final beads with larger holes.
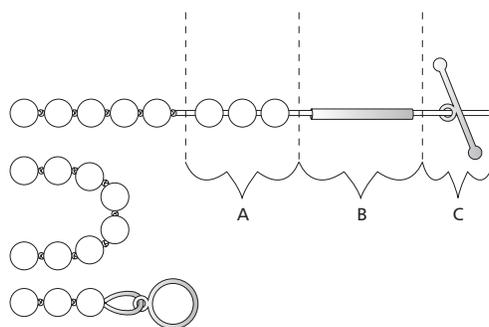

Step 8:
A) Thread on your final three beads with larger holes.
B) Thread on 3/4" of French wire.
C) Thread on other end of the clasp.

Step 9: Slip the clasp over the French wire and weave the tail of the bead cord in and out of the first bead. Tie a knot after it. Do the same to beads two and three. Add glue to final knot.
